spectfully ask the patronage of our friends.

delivery at this office at 3:30 o'clock P.M., except

P.M., until further notice.

STANLEY G. TROTT, P. M. POSTOFFICE NOTICE .- An evening mail for Augusta and Savannah, and for distribution beyond

those offices, will close daily at the Postoffice at half-past 6 o'clock. TOBACCO. - Our friends in the country would do well in purchasing their stock of segars and leaf cause. See to it that they brush their teeth regu tobacco, to call on C. Madsen, No. 55 Society, near

King street, where they may get a good article at moderate prices. United States Court at Greenville.—We are requested by the Clerk of the United States Circuit Court, now sitting in Greenville, S. C., to state that the Civil Docket will be called to-day, 27th inst., and the rest of the week will be devoted

to civil business. The criminal business will be suspended for a week or more. QUICK TRIB.—By telegram, received by Messrs. COURTENAY & TRENHOLM, agents, early yesterday afternoon, we learn that the Manhattan has been making another fine run, having left Charleston on Saturday at one o'clock, and was signalled off the "Hook" on Monday at four o'clock. Captain

WOODBULL knows how to do it. The Champion

sailed for this port on Monday afternoon, 3 o'clock.

REGISTRATION IN THE CITY.-In accordance with a notice published by Mr. N. TYLEE, Sr., the Chairman of the Fourth Precinct, no business was transacted in the Upper Words, and the returns are only from the first three precincts:

Colored majority.....

MAYOR'S COURT, August 26.-An old colored woman, who evidently thought herself a Nightingale or the Black Swan, attracted quite a crowd in the market by her discordant notes. The guardians, however, turned a deaf ear to her melodious accents, and carried her to the Academy, where she was examined, and not being a proficient, was sent to the Alms House, where she can employ her time in learning new tunes.

Celia Anderson, a sparkling colored damsel, desired to increase her wardrobe at the expense of her neighbors, but was detected and the dry goods taken from her. She received a lecture on her disreputable conduct, and was sent to a private apartment for ten days, where she could study the uestion more understandingly.

A Jehu, who, like his ancestor, drove furiously went past Trinity Church in a rushing style, but was summarily halted, captured and condemned to pay \$5 for his unlawful amusement.

THE TRADD STREET CAUSEWAY .- The laborers have, for some time, been engaged in repairing this causeway, and in restoring it to a passable condition. New breakwaters have been built, and the old ones strengthened by additional timbers, while the holes that were formed by the action of the tide are filled up with the marsh mud dug from the flat. This is taken at low tide, and subsequenly brought to the breakwater where it is at once thrown on the required spot. At first this mnd is quite soft, and easily fills all of the interstices, but it soon hardens in the sun and forms a durable and substantial pavement. Since the war this causeway became such a popular resort that it was impossible for it to remain in its dilapidated condition, and the authorities have conferred a great favor on the public by their prompt action toward its renovation.

It is more than probable, that as time advances the city will improve, and a greater part of the burnt district will be rebuilt, especially those houses adjoining the water. The Western portion of Broad and Tradd streets has been completely devastated, but the situation possesses many attractions, and the owners would probably have rebuilt ere this, but for the want of means. We have now before us the prospect of a good season, and old Charleston should shake off her lethargy and listlessness, and seek to repair the damages of the past six years. The City Fathers have already set the example by improving this causeway, and it only remains for others to follow this example, and make the court blossom with other plants than those that now grow in such wild luxuriance.

INSTALLATION OF SHERIFF W. S. HASTIE.-On the 26th of August the term of Col. JNO. E. CAREW, as Sheriff of the District of Charleston, expired, and he was succeeded by Mr. Wm. S. Has-TIE, the appointee of the military. The oaths of office were administered by Mr. J. W. Brown-FIELD, Clerk of the Court of General Sessions and Common Pleas, and Mr. HASTIE was duly installed as Sheriff. Mr. HASTIE is personally known to many of our citizens, and though not a native, he has been for many years a resident and merchant in this city, and his appointment to the Sheriffalty has given general satisfaction. According to instructions received from Headquarters, Mr. HASTIE is compelle. I to require his assistants and subordinates to take the test oath, which necessitates some changes in l'is department. Thus far only two removals have been made. Mr. W. H. HASELTINE has been appointed Jailor, and Mr. JNO. EASTERBY, Clerk, vice Mr. BESSELLIEU and Mr. Bolger, the

Col. JOHN E. CAREW, the ex-Sheriff, retires with the good wishes of the community, and though numbered among tire disfranchised, will lose none of that respect which has enabled him to fill so many positions in the gift of his countrymen. He has been in the political arena for a number of years, served acceptably both as a member of the Legislature and as Sheriff, to which berth he was twice elected, and notwithstanding the barrier which prevents his return to public life, he still possesses the esteem and confidence of his former

Registration of Foreigners. To the Editor of the Daily News:

A correspondent of THE DAILY NEWS, yesterday, under the above heading, signed "J. M. M.," doubtless intended to throw light upon the subject of registration of naturalized citizens. He charges some one at the outset with "a persistent effort to exclude foreigners from registration." Who is it? Is it the several Boards of Registration? or one or more of the Boards in the city? or to 'te Press? or the Pulpit? or the public generally?

We would not ask these questions seriously if we were not disposed to place a liberal construction upon the language he uses, and infer that natur. lized citizens were intended instead of

"foreig ners." As the several Boards of Registration of this

indiscretion, renders to the ever discovered.

M.," and the action of at least the first Board misrepresented (though we do not mean to say intentionally). the Chairman, passing over the prefex to the title he has given us, takes this opportunity to state that the most liberal construction possible is given to all the Acts of Congress bearing upon registration, and the Board are unanimously of the opinion that no naturalized citizens are excluded from registration from the mere act of having engaged in rebellion, a civil war against the United States. but only by the same act or acts committed under the same circumstances and conditions which exclude native born citizens, and that the least guilty of all participants in rebellion were, for the most And furthermore, that it has not been necessary

Geo. B. Upton. Captain RICH, sailed from Boston

for this port on Saturday last. At the commence-

the Massachusetts and South Carolina, were profit

ably engaged in the business which gave every indi-

cities interested. I ince the cessation of the diffi-

communication, last year started the fine propeller

ships Theo. D. Wagner and Geo. B. Upton. The Wagner was, unfortunately, destroyed by fire at

sea, but the Upton is again placed upon the line

under auspices which, it is hoped, give promise of

complete success. Another propeller ship will, it

is expected, be placed in the trade as soon as the

fall business fairly opens. The Upton will be

successful reputation as a tried and experienced

ship master. Mr. Wm. Roach, of our city will be

SHEFFIELD SCIENTIFIC SCHOOL,

ENGINEERING DEPARTMENT,

YALK COLLEGE, November 16, 1866.

I have always recommended the Faber Polygrade
Lead Pencils as the only pencils fitted for both ornamental and mathematical drawing; but, after a thorough
trial of the American Polygrade Lead Pencils, manufactured by the American Lead Pencil Company, New
York, I find them superior to any pencil in use, even to
the Faber or the old English Cumberland Lead Pencil,
being a superior pencil for sketching, ornamental and
mechanical drawing, and all the ordinary uses of a lead
pencil.

mechanical drawing, and a service pencil.

These pencils are very finely graded and have a very pencil.

These pencils are very finely graded and have a very smooth lead; even the softest pencils hold the point well; smooth lead; even the softest pencils. It gives me they are all that can be desired in a pencil. It gives me they are all that can be despend upon Germany or will no longer be compelled to depend upon Germany or any other toreign market for pencils.

HARVEST BOURBON,

In addition to our business of selling wines, etc., in original packages, and in order to insure to consumers Pure Liquors in a compact and convenient form, we commenced the enterprise of bottling and packing in cases our well known wines, Brandies, Whiskies, &c., and have sent them out in a style that would preclude the possibility of their being tampered with before reaching the purchaser. The general appreciation and gratifying success that has rewarded our efforts has encouraged us to maintain the standard as regards quality, also to make increased efforts to retain the confidence and patronage which has been so liberally bestowed upon us.
